Re: Chapeau for the great work!!

Dear Cornelis,

I have much appreciated your excellent lecture at the University of Copenhagen, Denmark, the high quality of information of Arab-West Report and meeting you and your dedicated co-founders, Engineer Sawsan Gabra Ayoub and Dr. Abdel Mo'ti Bayoumi. I wish I would have met other members as well. You and your group are doing an excellent job in presenting Muslim-Christian relations in Egypt for the sake of creating understanding between the Arab world and the West.

What I admired in your lecture and work is that you do not avoid discussing sensitive issues but do this with an admirable independence, not being afraid to criticize whoever you believe did not present accurate information. I have presented a report about your work to the Minister of Foreign Affairs who has responded with great admiration for your noble work.

I wish you much success in creating the Center for Arab-West Understanding and registering this as NGO in Egypt.

Yours sincerely,

Mona Omar
Ambassador
