To Whom it May Concern,

I would like to ask for your support for the Religious News Service from the Arab World (RNSAW) in Cairo, Egypt.

The RNSAW began as an effort to ease tensions between Muslims and Christians. They help by reporting and investigating Christian-Muslim relations that helps us to understand problems and deal with them in a proper way. Often reports from media are one sided and the work of RNSAW helps overcome this by their investigation of both sides.

Yours sincerely

+ Mouneer Egypt
